## **E.H. Wachs Company Appoints Mark Wozniak VP of Engineering, Craig Lewandowski VP of Manufacturing**

**Wheeling, IL (July 18, 2005)** – E.H. Wachs Company announced the appointment of Mark Wozniak as the Vice President of Engineering and Craig Lewandowski as the VP of Manufacturing. Mark joined E.H. Wachs Company in 1994 after receiving his BS in Engineering from the University of Illinois. Mark has served in various engineering and product management roles throughout his 11 years at E.H. Wachs Company and was responsible for the development of several standard and customized solutions, including specialty applications for naval systems. Craig joined E.H. Wachs Company in 1972 in manufacturing and has undertaken progressively more responsible roles, where he helped build the manufacturing department and establish the product development group. Craig received his degree in Machine Technology from Oakton College.

According to Rodger Soeldner, E.H. Wachs Company President,: “We are confident in both Mark’s and Craig’s abilities to create new customer-focused solutions that confirm our position as a premier manufacturer of pipe and valve machine solutions. Both bring a dedicated history, extensive industry experience and creative insights to their positions.

**About E.H. Wachs Company:** E.H. Wachs Company is a premier global manufacturer of reliable, portable maintenance equipment for pipes and valves. Customers worldwide have relied on E.H. Wachs Company to deliver dependable, effective solutions for thousands of applications for over a century.
